REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the closest prior art of record, namely Fages et al., Mills et al., and Kamarei, fail to teach or suggest the removal of prions from mammalian soft-tissue by extraction with a supercritical fluid. While extraction of proteins, nucleic acids and viruses are taught, there is no suggestion that such extraction would rise to the level of removing prions, which are recognized in the art as being resistant to conventional sterilization/extraction methods.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Krisanne Jastrzab whose telephone number is 571-272-1279. The examiner can normally be reached on Mon.-Wed. 6:30am-4:00pm and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Kim can be reached on 571-272-1142. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
